

<p>IMPREGNATING AGENT FOR WINE BARRELS</p>	<p>Item no.: 41 20 00</p>
<p>Areas of application</p>	<p>Impregnating Agent is an anti corrosive agent based on mineral anti corrosive agents, to protect surfaces from oxidation and weathering.</p> <p>Impregnating Agent is a product for the protection of the outside of wine-barrels from mould, grey-scaling and rotting in the cellar which has been tried and attested for decades.</p> <p>Impregnating Agent does not block any pores in the wood and the barrels treated with in have a clean, fresh appearance.</p> <p>If necessary, dirty barrels should be cleaned beforehand with Barrel Cleanser R # 40 50 00.</p>
<p>Corrosion protection</p>	<p>Impregnating Agent has special components for corrosion protection to prevent sensitive material from corrosion.</p>
<p>Method of application</p>	<p>Manual, using a cloth, paint brush or spraying equipment:</p> <p>Concentration: undiluted Temperature: 20 – 40° C (heating makes the product lighter what is better for spraying application) Time: The product remains on the surfaces</p>
<p>Material compatibility</p>	<p>Stainless Steel, Steel, Glass, Cast Iron, Cupper, Wood and Aluminium.</p> <p>Impregnating Agent must not be used on plastic.</p> <p>In addition, further material incompatibilities cannot be excluded. Therefore, test the product on an unimportant spot before its definite use.</p>

Analysis of concentration	Over density		
Physical and chemical properties			
Aspect/colour	Colourless, yellowish		
Form	Liquid		
Odour	Odourless		
Foaming behaviour (see under conditions of application)	Not foaming		
Phosphates	None		
Density (20°C) g/cm³	0.835 – 0.895		
Concentration	1% in H₂O dest.	3% in H₂O dest.	5% in H₂O dest.
pH value (1%, 20°C)	not applicable	not applicable	not applicable
Conductance (1%, 20°C) mS/cm	not applicable	not applicable	not applicable
Phenolphthalein alkalinity (ml)	not applicable		
m-Value (ml)	not applicable		
Storage stability	- 5° C – + 40° C		
Remarks regarding biocides	not applicable		
Hazardous products and risk symbols	Paraffin oil		
Special remarks	<p>Always close the container with the original closure, and store the items in a cool area without solar radiation. Product which was taken out of the container must never be poured back into the container.</p> <p>Read in any case our safety data sheet before using the product!</p>		
Disposal	Disposal acc. to official regulations, in case of doubt contact the manufacturer.		
<p>Please refer to our safety data sheets and our operating instructions with regard to precautionary measures, first aid measures and storage. The information given in the Sheet corresponds to the present state of our technical knowledge and experience. They do not constitute any guarantee; they are to be considered as basic information only. In particular they do not guarantee particular properties or the suitability for a concrete purpose. Because of the multitude of possible influences during the application of our products, the user has to make in any case the relevant tests and take the corresponding precautions.
