

ANTIBAKTERA O	Item no.: 41 35 00
Areas of application	<p>Antibaktera O is a disinfectant based on active chlorine.</p> <p>Antibaktera O is a quick-acting disinfectant for the removal of yeast plants, moulds, bacteria etc.</p> <p>Due to its important active chlorine components as well as wetting and stabilization inhibitors it is particularly suitable for outside applications in the beverage and food industry (disinfection of cans, barrels, tanks, pipes and hoses).</p>
Method of application	<p>CIP - application: Concentration: 1.0 – 2.5 g/l (0.1 – 0.25 %) Temperature: Cold Time: 10 – 20 minutes</p> <p>After having used the product rinse thoroughly with drinking water to remove any possible residues!</p> <p>In case of insufficient rinsing in the 'dead areas' of the plant equipment and pipes or in gaps e.g. under seals it could come to the enrichment of chloride ions which can lead at pH values < 7 to pit, hole and intergranular corrosion at stainless steel!</p>
Material compatibility	<p>PVDF, PP, PE, PVC, Stainless Steel</p> <p>Antibaktera O must not be used on aluminium, steel, cast iron, zinc and non ferrous metals.</p> <p>In addition, further material incompatibilities cannot be excluded. Therefore, test the product on an unimportant spot before its definite use. Make a paint test before using the product on painted surfaces.</p>

Analysis of concentration	see titration method		
Physical and chemical properties			
Aspect/colour	Yellow		
Form	Liquid		
Odour	Chlorine-like		
Foaming behaviour (see under conditions of application)	Not foaming		
Phosphates	None		
Density (20°C) g/cm³	1.230 – 1.250		
Concentration	1% in H₂O dest.	3% in H₂O dest.	5% in H₂O dest.
pH value (1%, 20°C)	10.6 – 11.2	not applicable	not applicable
Conductance (1%, 20°C) mS/cm	4.0 – 4.6	11.0 – 13.0	17.5 – 21.5
Phenolphthalein alkalinity (ml)	not applicable		
m-Value (ml)	not applicable		
Storage stability	+ 5° C – + 25° C		
Remarks regarding biocides	Biocides reliably use. Before use always read marking and product information! The product contains: 130 g/kg active Cl		
Hazardous products and risk symbols	Sodium Hypochlorite solution <div style="display: flex; justify-content: space-around; align-items: center; margin-top: 10px;"> <div style="text-align: center;">  DANGER </div> <div style="text-align: center;">  WARNING </div> </div>		
Special remarks	Always close the container with the original closure, and store the items in a cool area without solar radiation. Product which was taken out of the container must never be poured back into the container. Read in any case our safety data sheet before using the product!		
Disposal	Disposal acc. to official regulations, in case of doubt contact the manufacturer.		

Please refer to our safety data sheets and our operating instructions with regard to precautionary measures, first aid measures and storage. The information given in the Sheet corresponds to the present state of our technical knowledge and experience. They do not constitute any guarantee; they are to be considered as basic information only. In particular they do not guarantee particular properties or the suitability for a concrete purpose. Because of the multitude of possible influences during the application of our products, the user has to make in any case the relevant tests and take the corresponding precautions. Any existing intellectual property rights are to be observed.
