

LATOSAN 200	Item no.: 42 00 00
Areas of application	<p>Latosan 200 is an alkaline highly effective agent working without problems in hard and soft water and without any formation of lather.</p> <p>Because of special disinfectants the product acts again all kinds of bacteria. One of the remarkable features of the agent is its excellent wetting power so that it can penetrate into the small gapes and pores, allowing uniform wetting of all surfaces.</p> <p>Latosan 200 removes scale, bakteria and all organic pollutions in milk tanks, milk coolers and milking machines and accessories.</p> <p>The continuous use of Latosan 200 results in a degreasing of bacteria.</p>
Method of application	<p>Manual cleaning or cleaning in a re-circulating system: Concentration: 0.5 – 2.5 % (5.0 – 25.0 g/l) Temperature: 30 – 80° C Time: 5 – 20 minutes</p> <p>After having used the product rinse thoroughly with drinking water to remove any possible residues!</p> <p>In case of insufficient rinsing in the 'dead areas' of the plant equipment and pipes or in gaps e.g. under seals it could come to the enrichment of chloride ions which can lead at pH values < 7 to pit, hole and intergranular corrosion at stainless steel!</p>
Material compatibility	<p>PVDF, PP, PE, PVC, Stainless Steel, Glass</p> <p>Latosan 200 must not be used on aluminium.</p> <p>In addition, further material incompatibilities cannot be excluded. Therefore, test the product on an unimportant spot before its definite use.</p>

Analysis of concentration	see titration method		
Physical and chemical properties			
Aspect/colour	Yellowish		
Form	Liquid		
Odour	Chlorine-like		
Foaming behaviour (see under conditions of application)	Not foaming		
Phosphates	None		
Density (20°C) g/cm³	1.205 – 1.225		
Concentration	1% in H₂O dest.	3% in H₂O dest.	5% in H₂O dest.
pH value (1%, 20°C)	12.2 – 12.8	not applicable	not applicable
Conductance (1%, 20°C) mS/cm	7.7 – 8.7	21.5 – 25.5	36.0 – 41.0
Phenolphthalein alkalinity (ml)	2.8 ± 0.5 (1 % at 10 ml sample)		
m-Value (ml)	not applicable		
Storage stability	+ 5° C – + 30° C		
Remarks regarding biocides	<p>Biocides reliably use. Before use always read marking and product information!</p> <p>The product contains 39 g/kg active Cl</p>		
Hazardous products and risk symbols	<p>Sodium Hypochlorite solution Sodium Hydroxide</p> <div style="display: flex; justify-content: space-around; align-items: center;"> <div style="text-align: center;">  DANGER </div> <div style="text-align: center;">  WARNING </div> </div>		
Special remarks	<p>Always close the container with the original closure, and store the items in a cool area without solar radiation. Product which was taken out of the container must never be poured back into the container.</p> <p>Read in any case our safety data sheet before using the product!</p>		
Disposal	Disposal acc. to official regulations, in case of doubt contact the manufacturer.		

Please refer to our safety data sheets and our operating instructions with regard to precautionary measures, first aid measures and storage. The information given in the Sheet corresponds to the present state of our technical knowledge and experience. They do not constitute any guarantee; they are to be considered as basic information only. In particular they do not guarantee particular properties or the suitability for a concrete purpose. Because of the multitude of possible influences during the application of our products, the user has to make in any case the relevant tests and take the corresponding precautions.
