<p><b>CLEANER FOR SEPARATORS SX</b></p>	<p><b>Item no.:</b> <b>00 02 84</b></p>
<p><b>Areas of application</b></p>	<p><b>Cleaner for Separators SX</b> is a special product for all cleaning operations in the inner side of systems.</p> <p><b>Cleaner for Separators SX</b> removes in particular all organic impurities which can be found in separators, plate pasteurizers or plate liquid coolers, whirlpools, pipes as well as filters and filling systems.</p> <p>Because of the thorough combination of active-chlorine and the other components the product has an enormous cleaning effect.</p>
<p><b>Method of application</b></p>	<p><b>Add the product with an automatic dosing system (time relay, volumetric control or control over conductivity):</b></p> <p>Concentration: 1.0 – 2.0 %          Temperature: cold – 80°C          Time: 20 – 30 minutes</p> <p>After having used the product rinse thoroughly with drinking water to remove any possible residues!</p> <p>In case of insufficient rinsing in the 'dead areas' of the plant equipment and pipes or in gaps e.g. under seals it could come to the enrichment of chloride ions which can lead at pH values &lt; 7 to pit, hole and intergranular corrosion at stainless steel!</p>
<p><b>Material compatibility</b></p>	<p>PVDF, PP, PE, Stainless Steel, Glass, ceramic.</p> <p><b>Cleaner for Separators SX</b> must not be used on steel and cast iron.</p> <p>In addition, further material incompatibilities cannot be excluded. Therefore, test the product on an unimportant spot before its definite use.</p>
