

<b>DEMULSIFIER VR X P1</b>	<b>Item no.:</b>  <b>00 16 46</b>
<b>Areas of application</b>	<p><b>Demulsifier VR X P1</b> is a liquid neutral formulation which enable the quick separation of water from oil as well as the separation of emulsions from lubricating coolant. The product can be used in alkaline and acid cleaning solutions.</p> <p><b>Demulsifier VR X P1</b> is especially developed for the application in aqueous industrial parts and surface cleaning for the increasing of the service life of the washing bath.</p> <p><b>Demulsifier VR X P1</b> contains a special combination of cationic polymers and other ingredients for the acceleration of the separation.</p>
<b>Method of application</b>	<p><b>Add the product with an automatic dosing system (time relay, volumetric control) into the bathes of the washing machine:</b></p> <p>Concentration: 0.05 – 1.0 %          Temperature: 40 – 85° C          Time: 1 – 10 minutes</p> <p>Avoid overdosage! Overdosage comes to restructuring of new emulsion. The absolute precise concentration should be tested in a pilot testing in the lab. Use a beaker with well-defined quantity of the bath solution and add the Demulsifier dropwise into the solution till an optimum of separation has adjusted.</p>
<b>Material compatibility</b>	<p>Stainless Steel, Steel, Glass, Cast Iron, PVC, PVDF, PP, PE, Ceramic, Non-Ferrous Metals, Aluminium.</p> <p><b>Attention:</b></p> <p>In addition, further material incompatibilities cannot be excluded. Therefore, test the product on an unimportant spot before its definite use.</p>
